Step Up Your Corvette Customizations with Chrome or Color-Tinted Wheels from Wheel Craft

By Keith Cornett -Jan 20, 2026

Are you ready to give your Corvette a new look for 2026? One of the easiest and most satisfying customizations you can do with any Corvette begins with the wheels on the ground. No longer are you constrained to the “boring” painted finishes on Chevrolet’s factory Corvette wheels. Wheel Craft is already known for their beautiful chrome factory wheels, and now they offer OEM Corvette Wheels in a variety of finishes ranging from PVD Chrome and Black Chrome to color tinted wheels in just about every imaginable color.

Wheel Craft is now the undisputed king in the Corvette Nation when it comes to their easy to use Corvette wheel exchange program. They ship your new wheels to you or your installer for installation, and your previous wheels are then sent back to Wheel Craft in Ohio using prepaid labels. Just box them up and ship them back to complete the process!

Wheel Craft's PVD Chrome or custom color tint wheels are much more affordable than many enthusiasts realize, as a set of four wheels are generally priced between \$1,300 and \$1,700 depending on where they are being shipped to. You can also take advantage of our partnership with Wheel Craft by using the CB100 Promo Code to save \$100 on your order. Fill out the Quote Request Form or talk with a Wheel Craft advisor at 833-639-4231 for details.

Wheel Craft has perfected the art of Physical Vapor Deposition, which is the technical description of how the chrome or color tinting is applied to the wheel. The process happens in a vacuum chamber as micro-thin layers of the coated material bond with the alloy wheels. Once completed, the wheels then go through a rigorous inspection process and are then covered with a premium automotive clear coat that protects and enhances the finished wheels. Each and every Wheel Craft wheel also features a five-year warranty!

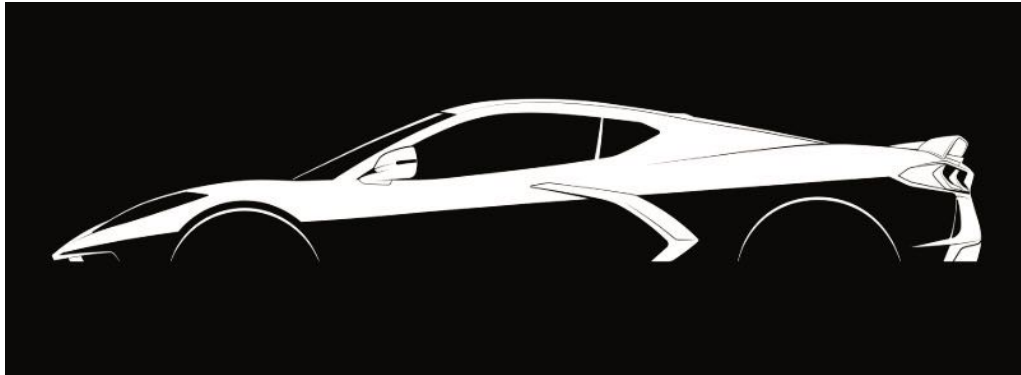

Wheel Craft offers PVD Chrome, Black Chrome or color-tinted wheels on all Corvette alloy wheel designs for C8 models including those for the new ZR1. Wheel Craft also offers PVD wheel exchanges for popular wheels found on previous Corvette generations as well.

Recently, Wheel Craft has been sharing additional photos of their color-tinted wheels on social media, and it really shows just how capable they are in delivery high impact wheels to Corvette owners. Bronze has been a very popular color, and you can get your factory wheels in Bronze for about half the price of Chevy's Bronze Accessories wheels. Perhaps you like the new Blue wheels found on the ZR1? Wheel Craft has done that color as well. And finally, their latest high impact color tint is called Illusion Red that done for a C8 Stingray customer.

Wheel Craft is an American company operating in Ohio and all work is done in the USA. Visit WheelCraft.com or call 833-639-4231 and talk to a customer service rep that can answer your questions about Wheel Craft's PVD Bright Chrome, Black Chrome, or color-tinted wheels. Mention the promo code CB100 on your Wheel Craft Quote Request and save \$100 on your order.

Total 4,807 (2026 Corvettes) Mfg TD

A total of **189,507** C7 Corvettes were produced between the 2014 and 2019 model years. Production peaked in 2016 at 40,689 units and hit a low in 2018 with only 9,686 units due to a shortened production year for plant upgrades. The C7 represents one of the most popular modern, shorter-run generations. [↗](#)
